we watch ourselves play at charades

attempting to understand the forces which motivate our decisions and ordain our lives

communication is our goal

but our understanding may be thwarted in this setting of social disorganization where the only constant seems to be change itself

the individual emotional reaction to the psychological isolation varies . . . we experiment we wonder

> and the visible manifestation is the nationwide, individual search for self

WAKE FOREST UNIVERSITY

we naively expect 4 years at a place called Wake Forest University to provide an alternative to the void we feel

so we search among the choices convenient to us but become only variations of the norm

or . . . finding all the talk about the void and meaninglessness of life to be meaningless, become only the norm.

so we give wfu four years (and more dollars) . . . but are still unable to guess the charade somewhere, we lost sight of living

WAIT CHAPEL

wait chapel loomed above me an overseer a towering symbol of the challenge of college life

but soon
the buildings lost
their awesome facades
they became
familiar friends
creating an atmosphere
in which to laugh,
learn,
and grow . .

GREEKS

GREEKS

CHEEKSCHEEKSCHEEKS

60% of wfu women 40% of wfu men belong to the society and fraternity population

some join to meet girls (or guys)

some are looking for anything to fill the social void

some stumble upon them as a diversion from academia

but whether seeking to become individuals or a group, the organization is preserved in brotherhood and sisterhood
